#### Dimensions:

458mm x 148mm x 187mm (L x H x D)

# secta-rid

## Safe, innovative fly control for food-focussed environments

### Safety and innovation since 1972

For over 40 years Secta-rid™ has been providing flying insect control solutions to the commercial, industrial and retail markets of Australia. Since the Secta-rid™ brand was founded in 1972 it has remained at the forefront of technical and design innovation, year on year building its reputation of high quality products and support services.

Our close working relationships with our customers is key to our product development giving us insight into the needs of all customers/end users in all market segments.

Secta-rid™ offers a comprehensive range of flying insect control products, from electric killing grid fly killers to glue board devices, for a wide range of applications. Recent leading product development includes the innovative and stylish range of Secta-rid Luralite™, Décor™ and Design™ - the decorative glue board units with energy saving lamps specifically designed for the commercial/hospitality market.

In addition to innovative fly killers, Secta-rid™ offers a range of branded consumables, including the Secta-tac™ replacement glue boards, and our custom manufactured wavelength UV tubes, available with and without shatterproof protective coating.

### Safety compliant, peace of mind

With over 40 year's experience in the design and manufacture of commercial and industrial electronic insect killers we have an in-depth knowledge of the rigid complex, and ever changing electrical safety standards governing the product.

Our commitment to full compliance with these rigid standards sets our products apart from those of our competitors and defines our ability to design, manufacture and deliver high quality safe and fully compliant products to our customers.

## ELECTRIFIED KILLING GRID MODELS

### SR40SS

#### Electrical Safety Compliance

Tested and approved to AS/NZS 3350.2.2002 "safety of household and similar electrical appliances" and AS/NZS 3350.2.59 particular requirements insect killers

Tested and approved to AS/NZS CISPR 14.1:2010 Electromagnetic Compatibility Requirements for household, electrical tools and similar apparatus - Emission
