IMPORTANT SAFETY INFORMATION

Read Instructions before operating.

Indoor Use Only: The SR-20 DESIGN™ FLY TRAP is for INDOOR USE only and is not to be exposed to moisture or rain.

All warnings on the appliance and in the operating instructions should be adhered to and all operating and user instruction should be followed.

This appliance is not intended for use by persons, including children, with reduced physical, sensory or mental capabilities or lack of experience and knowledge unless they have been given supervision or instruction concerning the use of the appliance by a person responsible for their safety. Children should be supervised to ensure they do not play with the appliance.

Water and Moisture: The appliance should not be used near water for example, near a bathtub, washbowl, kitchen sink, washing machine, or near a swimming pool.

Ventilation: The appliance should be situated so that its location or position does not interfere with its proper ventilation. For example, the appliance should not be situated on a bed, sofa, rug or similar surfaces that may block the ventilation openings; or placed in a built-in installation, such as a bookcase or cabinet that may impede the flow of air through the ventilation openings.

Heat: The appliance should be situated away from heat sources such as radiators, stoves and other appliances (including amplifiers) that produce heat.

Power Sources: The appliance should be powered only as described in these operating instructions or as marked on the appliance.

Cleaning: The appliance should be cleaned only as recommended by the manufacturer and in accordance with the water and moisture warnings stated in this manual.

Object and Liquid Entry: Do not submerge the SR-20 DESIGN™ in water. Do not place any objects through any openings in the SR-20 DESIGN™

Damage Requiring Service: The appliance should be serviced by qualified service personal when:

- Objects have fallen, or liquid has been spilled into the appliance.
- The appliance has been exposed to rain.
- The appliance does not operate normally or exhibits a change in performance.
- The appliance has been dropped or the enclosure is damaged.

Servicing: The user should not attempt to service the appliance beyond that described in the operating instructions doing so will void the warranty.

Flexible Cable: If the external flexible cable of the SR20 DESIGN™ is damaged, it shall be exclusively replaced by The Kelly Company Pty Ltd or an authorized service agent

Thank you for purchasing the Sectrarid FlyTrap SR-20 Design™. This manual will provide you with directions for the safe and efficient operation of your SR-20 Design. Please read the manual carefully and keep it in a safe place for future reference. Failure to operate the SR-20 Design™ in accordance with the instructions in this manual may cause damage to the unit.

MOUNTING:

To achieve maximum performance from your Sectrarid FlyTrap SR-20 Design™ please review and observe the following recommendations:

- i. Light sensitive flying insects are attracted to the black light UV lamp and trapped on the adhesive board
- ii. The Sectrarid FlyTrap SR-20 Design™ is designed for areas up to 40 square metres. For larger areas multiple units should be used
- iii. The Sectrarid FlyTrap SR-20 Design™ may be conveniently wall mounted a minimum of 1.7 to 2.0 metres, from the base of the unit to floor level
- iv. If a power extension lead is used it **MUST** be suitable for the intended use. Keep the extension lead dry and off the floor; avoid heat, oil and sharp edges.

⚠ WARNING:

Sectrarid FlyTrap SR-20 Design™ is designed for **INDOORS USE ONLY**, do not use outdoors

SPECIFICATION:

Product Number: 71292
Input: 220V ~ 240V 50Hz - 20 Watts
Lamp Replacement: BL-ESL 20W Cat No 71469
Electrical Approval: SAA131791EA

UV BLACK LIGHT LAMPS:

The Energy Saving UV Black Light Lamp Cat No 71469 used in your Sectrarid FlyTrap SR-20 Design™ is long wave and therefore safe. The output / intensity of the lamp in the invisible ultraviolet frequency range reduce with use. For maximum attraction of flying insects replace the lamp every 12 months.

INSTALLATION & OPERATION

The Sectarid FlyTrap SR-20 Design™ utilizes black light ultraviolet lamp and the commercially proven adhesive entrapment technology to effectively attract, capture and kill flying insects with no zap, or chemicals. The entrapped flying insects become dehydrated and die.

Adhesive Entrapment Media (Glue Board)

The Adhesive Entrapment Media (Glue Board Mat) is manufactured from a specially developed glue formula specifically designed for the entrapment of flying insects. It retains its adhesive qualities for up to 6 weeks and is changed simply and hygienically in a matter of seconds by sliding it in and out of the appliance

1. **Replacement:** adhesive entrapment mat should be replaced every 6 weeks, or sooner should it become overloaded with captured / dead insects
2. **Installation:** To install the mat do the following:
 - i. Write the installation and replacement date on the reverse side of the mat.
 - ii. Peel off the 'release paper' to expose the chartreuse (yellow) adhesive surface.
 - iii. Holding the mat by the non-tacky edge, and with the adhesive surface facing towards the front of the appliance, slowly slide it into the slots at the rear of the Design™ taking care to not to touch the lamp with the adhesive surface
 - iv. If the mat comes into contact with the black light UV lamp it will stick to it. Simply pull the mat up out of the SR-20 Design™ and repeat iii.
 - v. Wall mount the SR-20 Design™ a minimum of 1.7 to 2.0 metres, from the base of the unit to floor level
 - vi. Your SR-20 Design™ is now ready for use.
3. **Removal:** To remove the adhesive entrapment mat do the following:
 - i. Turn off the power to the SR-20 Design™
 - ii. Holding the mat by the non-tacky edge, slide it out taking care not to allow the adhesive surface of the mat to contact the black light UV lamp.
 - iii. Reinstall the adhesive entrapment mat

NOTE: Never cover the top of the SR-20 Design™ as this will prevent flies and other flying insects from entering the entrapment chamber

Replacement Glue Board Mats: Available from supplier where you purchased the SR-20 Design™ online www.sectarid.com.au or selected retailers.

Trouble Shooting:

Lamp not operating	Electricity not switched on	Check power socket
	Lamp has failed	Replace lamp
Flying insects no being Captured by Glue Board	Glue Board is exhausted	Replace Glue Board
	Glue Board has lost its adhesive properties	Replace Glue Board

WARRANTY

WARRANTY:

Congratulations on purchasing the SECTA-RID® Fly Trap Model SR-20 Design™, a quality appliance from The Kelly Company. Please read the following warranty information and complete the purchase date and retailer / supplier information as this will be needed when making a warranty claim.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure. The product is warranted for 1 year from date of original purchase.

The provision of this warranty shall not apply to any product which has been subject to abuse and misuse, neglect or accident. Nor does the warranty apply to any product that has within the warranty period been used for a purpose for which the product has not been designed or which has been repaired or altered in such a way so as to adversely affect its performance and reliability. Service by an unauthorized source may void the warranty.

The Kelly Company Pty Ltd neither assumes nor authorizes any person to assume responsibility for damages due to accident, abuse, lack of responsible care, or the fixing of any unauthorized attachment or subjecting the product to any but 240V

Purchase Record: Immediately complete the following Proof of Purchase information and retain your cash register and credit card receipt as proof of purchase as this will be required when claiming under this warranty.

Date of Purchase:.....

Supplier Name & Address:.....

Warranty Claim:

- i. Ensure that the SECTA-RID® Fly Trap Model SR-20 Design™ is well packed to avoid transport damage as this is not covered under the Warranty. Also include written details of the product failure, proof of purchase and your full name, address, telephone number and email address
- ii. Send the product to our Service Department (details below)
